

INTRO TO STACKING CONTEXT

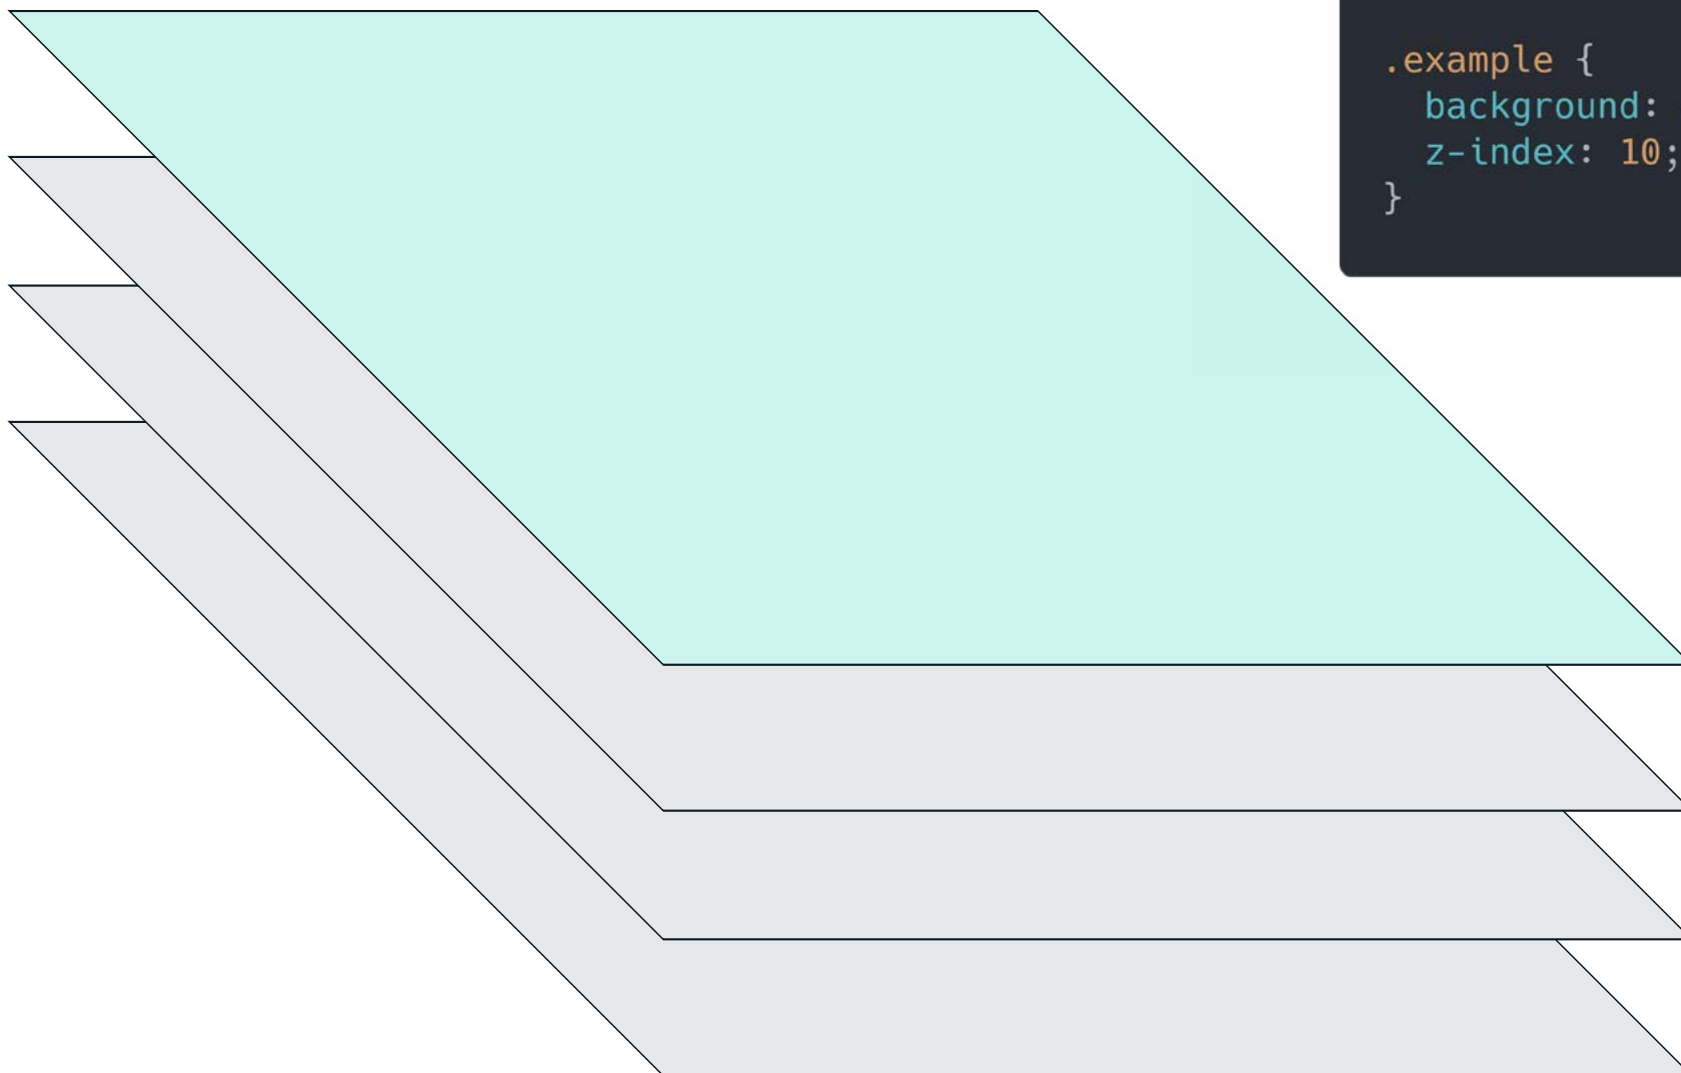

**WE ALL USE Z-INDEX FROM TIME
TO TIME, AND IT SEEMS STRAIGHT
FORWARD**

**WE CHANGE THE Z-INDEX OF AN
ELEMENT AND WE CAN MOVE IT "UP"
AND "DOWN" RELATIVE TO OTHER
ELEMENTS**

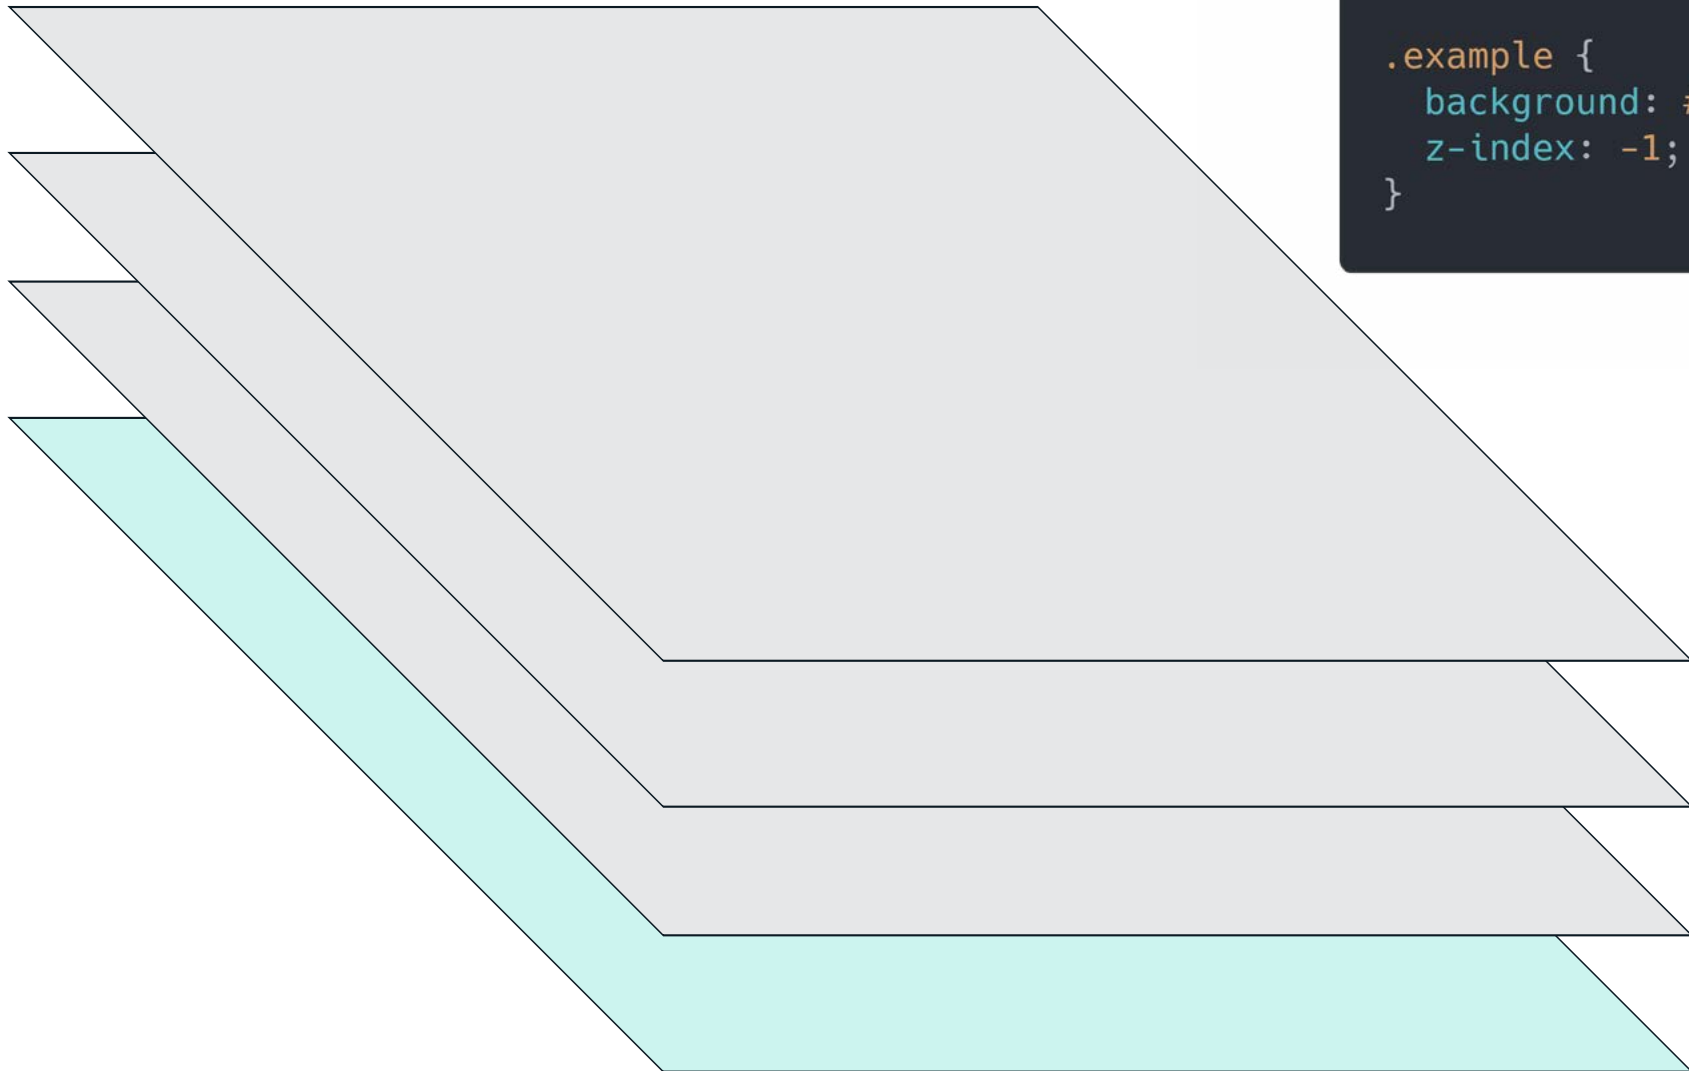

```
.example {  
  background: #00c7b0;  
}
```

```
.example {  
  background: #00c7b0;  
  z-index: 10;  
}
```

```
.example {  
  background: #00c7b0;  
  z-index: -1;  
}
```

**AND WHILE THAT'S TRUE THERE IS
A LOT MORE TO IT THAN THAT**
